

**REMARKS**

Applicant is in receipt of the Notice of Allowance and Fees Due, form PTOL-85, dated November 12, 2008, but notes however that the form does not contain the correct Title of the Invention. As should be clear from the prosecution history, Applicant in the Amendment filed March 13, 2008 requested a change in the Title in response to a requirement to change the Title by the Examiner. Responsive to this amendment, the Examiner in the next Office Action duly removed the requirement for a new Title, thereby indicating approval for its entry. Therefore, the Title of the Invention should now be "NETWORK COMMUNICATION MANAGEMENT METHOD AND SYSTEM" by operation of 35 U.S.C. § 132 and 37 C.F.R. § 1.111. It appears, for reasons unknown to Applicant, that the Title was not corrected prior to issuing the Notice of Allowance.

Therefore, Applicant respectfully requests either the entry of the change in Title made on March 13, 2008, or the entry of the instant correction to the Title, so the patent may issue with the correct Title of the Invention.

**Conclusion**

Prompt and favorable consideration of this Amendment is respectfully requested.

If the Examiner believes, for any reason, that personal communication will expedite prosecution of this application, the Examiner is invited to telephone Paul T. Sewell, Registration No. 61,784, at (703) 205-8000, in the Washington, D.C. area.

If necessary, the Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any overpayment to Deposit Account No. 02-2448 for any additional fees required under 37 C.F.R. §§ 1.16 or 1.14; particularly, extension of time fees.
